

Telnic Launches Multilingual Website

.tel information now available in 11 languages

LONDON, United Kingdom – 30th March, 2009 – Telnic Limited (www.telnic.org), the registry operator for the new .tel top level domain, today announced the launch of its multilingual website, providing .tel related information in 11 languages including: English, French, German, Spanish, Italian, Portuguese, Chinese, Japanese, Korean, Arabic and Russian.

“With over 145 registrars signed up to offer .tel domain names in 30 countries, we are pleased to provide a multilingual website to help people across the world better understand the power and innovation of .tel,” says Benjamin Blumenthal, Telnic’s Director of Marketing.

“All .tel domain names are offered on a first-come first-served basis. This multilingual site is Telnic’s way of reaching out to the different countries and cultures around the world and giving them an equal chance of registering the ‘high value’ names.”
